Why Jaipur Hotels Need a CRM

The Pink City draws millions of guests. The hotels that remember and follow up with them win the repeat business.

Millions

of tourists visit Jaipur each year

5-7x

cheaper to keep a guest than find a new one

98%

of guests read WhatsApp messages

The opportunity

Most guests never hear from a hotel again after they check out.

- A CRM remembers every guest and their preferences.
- Return-visit offers and post-stay messages bring guests back.
- More direct bookings means less commission to pay.

What a Hotel CRM Does for You

Everything your front desk and marketing need, in one place.

Guest Profiles

Keep full history and preferences for a warm, personal welcome.

Bookings & Reminders

Track reservations and send confirmations automatically.

WhatsApp Messaging

Reach guests where they are, through the official API.

Reviews & Reputation

Ask happy guests for reviews at the right moment.

Return-Visit Offers

Win-back and festival offers that bring guests back.

Clear Reports

See occupancy, revenue, and repeat-guest rates at a glance.

The Guest Journey, Handled

From the first enquiry to a five-star review, the CRM guides every step.

1

Enquiry

Capture every booking enquiry from phone, web, or WhatsApp.

2

Stay

Welcome guests by name with their preferences ready.

3

Follow-Up

Send a thank-you and ask for a review after check-out.

4

Return

Win them back with timely, personal return-visit offers.

Why DataBridge for Your Hotel

Built in Jaipur, made for how local hotels really work.

Made for hospitality

Guest profiles, bookings, and front-desk tools ready to use.

Official WhatsApp

Reach guests safely with no risk of a number block.

Works on mobile

Manage your hotel from your phone, anywhere, anytime.

Just Rs 50/day

Full platform with local support, at a price that fits.

Real result: *“Return-visit offers on WhatsApp brought back 30% more guests in one season.” — Hotel Owner, Jaipur*
